

Clark Forklift

Clark Forklift Forklift Training - At this time, there are no less than 350,000 Clark lift trucks performing globally, and more than 250,000 in service in North America alone. With five major lines across the globe, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, handles more than 120,000 individual components intended for 20 distinctive designs of lift trucks and automated equipment. Your local Clark Dealer is your complete source for availability of all your components requirements supplied by Clark Totalift.

Clark features a extraordinary Parts Distribution team. The items warehouses are conveniently located in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their customers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Driven to supply the highest level of value and service to our users, Clark remains on the cutting edge when it comes to improving productivity and benefiting performance.

Worldwide, Clark has one of the most amazing dealer support networks. With over 550 locations worldwide, supplier representation in over 80 countries and 230 locations in North America, their high level of dedication to their clients predominates the material handling industry.

Clark proudly remains an innovative leader of the material handling industry, revolutionizing safety features such as the worker restraint system. This exceptional dedication to safety is currently a customary feature on every forklift.

Clark's continual mission to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck manufacturer across the world to be certified with the globally approved quality standard ISO 9001 for every one of their manufacturing facilities. Also, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any number of environmental limitations, thus placing them in a dominant market position.

Supply Efficient Manufacturing

Clark has chosen the system of "Lean Production" at all of its assembly facilities for the reason that this method is particularly economical and allows for minimal use of resources. Established to ensure maximum efficiency, this system is intended to discover and acknowledge the most effective ways for manufacturing plant management. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

Engineering

Clark's product engineers and suppliers communicate together to develop the proficiency and excellence of their products while minimizing expenses. The new value engineering agenda combines modern product development and provides superior customer support and service within the industry.
