

Whitby Aerial Lift Train the Trainer

Whitby Aerial Lift Train the Trainer - The Aerial Lifts Train the Trainer Certification Program will teach trainers how to effectively train operators in safe industrial mobile equipment operation. Trainers are provided with in-depth instruction about aerial lift equipment. The program is provided on an open enrollment basis and delivered at select training locations. Before the certification, trainers are assessed and scored based on their demonstrated skills and understanding.

The Aerial Lifts Train the Trainer Certification Program emphasizes practical learning. As the best training provider in the industry, we give the best hands-on training possible through opportunities to practice concepts and techniques learned within the classroom. In addition to hands-on experience, trainers develop general understanding of instructional methods and machine theory, field and classroom communication skills, and ability to effectively train and assess operators. Trainers would gain an understanding about what traits make a successful trainer.

The Aerial Lifts Train the Trainer Program likewise teaches the proper techniques needed to be able to express the correct information inside the classroom and field environment. There are three aspects of machine operation which the trainer must learn how to convey to operators: what to carry out; how to do it; and why it needs to be done.

In the program, trainers would be given the detailed, latest reference material to better help them convey the information to machine operators. The guidebooks utilized, contain detailed information regarding all aspects of industrial mobile machine operator training. Included within the package are training aids that provide a visual reference so as to improve the learning experience. The equipment-specific training products contain necessary materials for both the trainer and the operator: videos/DVD's, overhead transparencies, safety message posters, equipment models; stability pyramids and digital training aids.
